Bill No	: 124-014717-26		

Final Test Report

INVESTIGATION / METHOD	RESULT	UNITS	BIOLOGICAL REFERENCE INTERVAL
TRIGLYCERIDES (Method : Lipase/Glycerol Dehydrogenase) (Specimen: SERUM)	110.0	mg/dL	Normal :<150 mg/dl Borderline high:150-199 mg/dl High :200-499 mg/dl very high :>500 mg/dl NCEP ATP III guidelines

Note: When serum Triglycerides are > 400 mg/dL, VLDL cholesterol calculation is not applicable, as the Friedewald formula is not valid beyond this range. Hence, VLDL value is not reported.

VLDL CHOLESTEROL (Method : Calculation) (Specimen: SERUM)	22.0	mg/dL	<30
NON-HDL CHOLESTEROL (Method : Calculation) (Specimen: SERUM)	94.5	mg/dL	<130
CHO / HDL RATIO (Method : Calculation) (Specimen: SERUM)	3.8	Ratio	Optimal<3.5 Goal <5.0
LDL/HDL RATIO (Specimen: SERUM)	2.5	Ratio	1.5-3.5 NCEP ATP III guidelines
TGL/HDL RATIO (Method : Calculated) (Specimen: SERUM)	**3.3**	Ratio	Ideal :<2.0 High risk :>4.0 Very high risk:6.0

A lipid profile provides assessment of atherogenic risk and guides cardiovascular risk management.Borderline and high values should be correlated with patient's clinical history, risk factors (diabetes, hypertension, smoking, family history), and other investigations. Management includes lifestyle modification, dietary regulation, physical activity, and pharmacotherapy (e.g., statins, fibrates, niacin, PCSK9 inhibitors) where indicated.

LIVER FUNCTION TEST (With GGT)

BILIRUBIN TOTAL (Method : Diazo) (Specimen: SERUM)	0.34	mg/dL	<1.2
BILIRUBIN DIRECT (Method : Diazo) (Specimen: SERUM)	0.15	mg/dL	0-0.3
BILIRUBIN INDIRECT (Method : Diazo) (Specimen: SERUM)	0.19	mg/dL	0.1 - 0.9
Aspartate aminotransferase(AST/SGOT) (Method : IFCC) (Specimen: SERUM)	12.5	U/L	5-30
Alanine aminotransferase(ALT/SGPT) (Method : IFCC) (Specimen: SERUM)	7.9	U/L	5-35

Final Test Report

INVESTIGATION / METHOD	RESULT	UNITS	BIOLOGICAL REFERENCE INTERVAL
IMMUNOLOGY			
ISWARYAM-RUBY - MHC			
THYROID PROFILE TEST - TOTAL			
Total-T3 (Triiodothyronine-T3) (Method : CLIA) (Specimen: SERUM)	108.0	ng/dl	70-204 Pregnant women: 1st trimester:90-251 2nd trimester:130-287 3rd trimester:120-270
Total-T4 (Thyroxine T4) (Method : CLIA) (Specimen: SERUM)	5.9	ug/dl	4.5-11.7 Pregnant women: 1st trimester:7.3-15 2nd trimester:8.9-17.4 3rd trimester:8.0-17.7 ATA guidance
TSH (Thyroid-stimulating hormone)-Ultra (Method : CLIA) (Specimen: SERUM)	**4.520**	uIU/ml	0.4-4.5 Pregnant women: 1st trimester:0.33-4.59 2nd trimester:0.35-4.10 3rd trimester:0.21-3.15

*Time of the day, stress, intense physical activity, certain medications, sleep deprivation, fasting and illness cause fluctuations in TSH levels.
*Hence it is advised to take the TSH test around the same time of the day and in the same manner (fasting/nonfasting).
